OFFICE OF THE SECRETARY TO THE PRESIDENT

New Delhi, the 10th March 1959

No. 20-Pres/59.—The President is pleased to award the President's Police and Fire Services Medal for gallantry to the undermentioned officer of the Uttar Pradesh Police:—

Name of the Officer and Rank

Shri Devi Prasad, Platoon Commander (*Officiating*), XVII Battalion, Uttar Pradesh Provincial Armed Constabulary, Assam. (*Deceased*).

Statement of Services for which the decoration has been awarded

On the 27th July 1957, Platoon Commander Shri Devi Prasad of XVII Battalion, Uttar Pradesh Provincial Armed Constabulary stationed in Assam, was detailed to take out a Road Patrol Party consisting of 15 men from Zubza in order to clear the road from Zubza, at mile 35, to mile 44. Kohima is 10 miles from Zubza and the responsibility for keeping the line of communication open from mile 33 to mile 44 fell to the Provincial Armed Constabulary Post at Zubza. When the patrol reached a point between mile 37 and 38, they were suddenly fired upon heavily by about 300 armed Naga hostiles who had taken well entrenched positions and laid an ambush. A number of the patrol party were killed and injured. Platoon Commander Devi Prasad was severely wounded. The hostiles called on the Police to surrender. Platoon Commander Devi Prasad, however, rallied the remnants of his small force and personally exhorted them to fight back. He continued to direct and encourage his men until he succumbed to his wounds. Inspired by his example and courageous leadership his men inflicted heavy casualties on the hostiles and held them in check until police reinforcements arrived from Zubza and compelled the hostiles to withdraw. But for Platoon Commander Devi Prasad's exemplary courage and devotion to duty, his small force would have been completely annihilated.

This award is made for gallantry under rule 4(i) of the rules governing the award of the President's Police and Fire Services Medal and consequently carries with it the special allowance admissible to officers of and below the rank of Inspector of Police as provided in rule 5.

Throughout this encounter he displayed gallantry of a high order.

This award is made for gallantry under rule 4(i) of the rules governing the award of the Police Medal and consequently carries with it the special allowance admissible to officers of and below the rank of Inspector of Police as provided in rule 5.

The second vehicle with Head Constable Padam Singh in command and driven by Constable Gajraj Singh, however, ran the gauntlet of the hostile ambush and succeeded in reaching the end of the ambush between miles 37 and 38. Head Constable Padam Singh ordered his men to take up positions on the ridge and by continuous and accurate fire compelled those in that area to withdraw into the jungle. Shri Ram Oudh Singh who was in the third vehicle, ordered his men to take positions on the side of the ridge and opened fire on the hostiles resulting in the withdrawal of the remainder.

Name of the Officer and rank

Shri Mahendra Pratap Singh, Sub-Inspector of Police, Meerut District, Uttar Pradesh—(*Deceased*).

Statement of services for which the decoration has been awarded

On the night of the 30th September 1957 information was received at Police Outpost Shah Peer Gate, Meerut, that two persons armed with an unlicensed pistol had been seen entering the city. Sub-Inspector Mahendra Pratap Singh, Second Officer, Kotwali, Meerut collected the constables at the Outpost, and when two men passed through Shah Peer Gate, challenged them whereupon they started running away. The Police gave chase and one of the suspects was caught by Constable Baljit Singh. The other turned and fired at the Constable injuring him in the leg. Sub-Inspector Mahendra Pratap Singh rushed at the armed man who fired another shot hitting him in the stomach. Despite his severe wound, Sub-Inspector Mahendra Pratap Singh grappled with his assailant who fired again wounding him a second time, and then tried to make good his escape across a drain. Undaunted, Sub-Inspector Mahendra Pratap Singh continued the chase

and again caught him. The suspect fired a third time again wounding Sub-Inspector Mahendra Pratap Singh, who, however, tenaciously held to his assailant until some police and members of the public came up and secured him. A 38 bore automatic Colt pistol was recovered from him. Sub-Inspector Mahendra Pratap Singh was rushed to hospital but succumbed to his injuries some forty-eight hours later.

In this encounter Sub-Inspector Mahendra Pratap Singh showed conspicuous gallantry and devotion to duty of the highest order. His supreme sacrifice will remain a splendid example of courage and devotion to the force to which he belonged.

PART I—Section 1**Notifications relating to Non-Statutory Rules, Regulations and Orders and Resolutions issued by the Ministries of the Government of India (other than the Ministry of Defence) and by the Supreme Court****OFFICE OF THE SECRETARY TO THE PRESIDENT***New Delhi, the 12th March 1959*

No. 24-Pres.59.—The President is pleased to award the President's Police and Fire Services Medal for gallantry to the undermentioned officer of the Assam Police:—

Name of the officer and rank.

Shri Abani Kanta Dutta, Assistant Sub-Inspector of Police, Assam. (Deceased).

Statement of services for which the decoration has been awarded.

Shri Abani Kanta Dutta established an intelligence post at Chudhuyimlang in Changkikong Range, Mokokchung Sub-division, Naga Hills District, on the 25th April, 1956, and from that day onwards served there collecting very valuable information about the hostile camps, their activities and plans, which he passed on to the army authorities resulting in many successful raids by the troops. The most important of these was the capture of the Ao area headquarters from which a number of documents were seized. This was a great loss to the hostiles who marked Shri Dutta, and in fact all members of the intelligence service, down for revenge from that date. Shri Dutta however continued undaunted to personally guide any troops new to the area, and often travelled without any escort in hostile territory to contact his various sources. He gained the confidence of the Nagas and his popularity with them was a further cause of annoyance to the hostiles.

On the 18th August 1957, Shri Dutta had gone to Chudhuyimlang and on his way back was attacked by several well armed hostiles. He tried to defend himself but was killed.

Throughout the period of sixteen months during which Shri Dutta operated in the Ao area, his life was constantly in danger but he did not permit this fact to deter him from doing his duty which he performed with great courage and for which he laid down his life.

This award is made for gallantry under rule 4(i) of the rules governing the award of the President's Police and Fire Services Medal and consequently carries with it the special allowance admissible to officers of and below the rank of Inspector of Police as provided in rule 5.

- (iii) To assess (a) present import; (b) indigenous production and (c) consumption of milk powder in India for different purposes.

- (iv) To make recommendations regarding the nature of plant and machinery required for the manufacture of milk powder keeping in view the present foreign exchange position and to examine the scope for the fabrication of roller and spray milk drying plants in India in the near future.
- (v) To make such other recommendations that the Committee may deem appropriate having regard to the objective of developing the production of milk powder in India.
- (vi) The Committee may also make an inquiry on the above lines in regard to condensed milk.

2. The Committee submitted its report on the 11th December, 1958 and its main recommendations are:—

- (i) A well organised indigenous milk condensing and drying industry should be established as speedily as possible not only to meet the requirements of condensed, evaporated and dried milk but also to provide a remunerative outlet for surplus milk available in certain areas which is not being marketed very profitably at present. This step would add to rural prosperity.
- (ii) In selecting locations for milk manufacturing plants the fluid milk requirements, present or future, of large consuming centres should not be lost sight of. In fact, these requirements should be satisfied first and only surplus milk not required for liquid consumption should be used for manufacturing purposes and, wherever possible, a milk products factory should be equipped to handle market milk as well.
- (iii) To make the country self-sufficient in infant milk foods and whole milk powder, both of which are required for consumption by priority consumers, preference should be given to the manufacture of these products rather than butter/ghee and skim milk powder, both in the existing plants and the new plants coming up in the public and private sectors.
- (iv) Due to lack of care exercised in the production of milk under Indian conditions, it gets heavily contaminated with bacteria which reduces its keeping quality. In order to avoid such contamination, milk should be produced hygienically and extension work should be undertaken by competent technical staff.
- (v) Extension service is necessary to increase and intensify milk production in the selected areas. The extension work should consist of organisation of producers' co-operatives to market milk and to arrange supply of food, fodder, fertiliser, etc. Special Staff necessary for this purpose should be employed by the State Governments concerned.
- (vi) Priority should be given by the States concerned for providing a network of all weather roads for the transport of milk from the rural areas to milk processing plants.
- (vii) The question of indigenous manufacture of dairy equipment should be examined speedily by the Ministry of Commerce and Industry in collaboration with the Ministry of Food and Agriculture and foreign exchange necessary for plants which cannot be fabricated indigenously should be released so that the projected milk powder plants in the Second Five Year Plan may come up speedily.
- (viii) Milk surveys should be carried out in existing milk pockets in different parts of the country. The results of these surveys would be helpful in implementing the schemes for the development of milk powder industry both in the public as well as private sectors. In the opinion of the Committee there are many areas in Andhra Pradesh, Bihar, Bombay, Madras, Mysore, Madhya Pradesh, Uttar Pradesh and Punjab where milk powder and milk condensing plants can be set up. This should, however, be confirmed by carrying out detailed milk surveys, and a definite plan prepared as early as possible for the establishment of milk powder plants in different parts of the country during the next 5 to 7 years. The plan should also indicate which particular area would be best suited for the location of condensed milk plants, roller drying or spray drying plants. It would be desirable to entrust the work of carrying out milk survey to the Central Staff employed in Ministry of Food & Agriculture.
- (ix) Both roller drying as well as spray drying plants have their utility. The choice would depend upon the availability of milk, finances and the usage of milk powder in future. Roller drying should be adopted where the quantity of milk available is less than 300 maunds per day or where skim milk, butter milk or they are to be dried for use as animal feed or for manufacturing purposes. Baby foods can also be manufactured by roller drying process. Spray drying should be adopted where dried milk is to be reconstituted for use on the table.

- (x) The National Dairy Research Institute, Karnal should pay special attention to the study of condensing and drying of milk produced by Indian cows and buffaloes at different times of the year.

3. The Government of India after careful consideration of these recommendations have accepted (i) to (iv) and (vii) to (x) mentioned in paragraph 2 above and will take steps to implement them as far as possible. Recommendation Nos. (v) and (vi) are commended to the consideration of the State Governments.
